

36th MEETING OF THE PLANT POPULATION BIOLOGY SECTION OF THE
ECOLOGICAL SOCIETY OF GERMANY, AUSTRIA AND SWITZERLAND

POP BIO 2024

A conference on Plant Population Biology

Frankfurt am Main, 2-4 May

Exciting talks and posters

Conference dinner on 3 May

Excursion to Monte Scherbelino on 4 May

**Submit your poster or talk
abstract by 8 March!**

KEYNOTE SPEAKERS

Elena Hamann - Heinrich-Heine University Düsseldorf

Contemporary evolution in plants: what the resurrection approach (fore)tells about climate change adaptation.

Hendrik Poorter - Wageningen University

How to make experiments under controlled conditions relevant for understanding plants growing in the field?

Marina Semchenko – University of Tartu

Plant-soil feedbacks – major drivers and evolutionary implications.

Rubén Milla – University Rey Juan Carlos of Madrid

An ecological look at crop evolution.

Severin Irl – Goethe University Frankfurt

Treasure island in peril? Drivers of insular biodiversity and human-induced threats to islands.

Location:

Otto-Stern-Zentrum
Uni Campus Riedberg
Ruth-Moufang-Straße 2
60438, Frankfurt am Main
